

**Johnny Robinson (he/him)**

As a Cape Codder who grew up exploring sandy beaches, saltwater marshes, and pine/oak forests, Johnny fell in love with natural spaces at an early age. He has previously completed conservation internships with Siuslaw National Forest in Oregon, the Town of Dennis (MA) Department of Natural Resources, and Kennebec Land Trust, and worked full-time for Orenda Wildlife Land Trust as a land steward. Johnny graduated from College of the Atlantic with a BA in human ecology, and he now works in land and conservation restriction acquisition as Conservation Associate for Berkshire Natural Resources Council in Berkshire County.
